

Water Storm Worksheet: Why is Water Important?

Why is Water Important?

- Why is water important to your life?
- How do you use water?
- Where do we get water from?
- Where does water go after we've used it?
- How is water used in growing food?
- Why do farmers need to be water efficient?
- Why do we need to take care of our water?
- What could you do to save water?

Explain why water is important using the above questions as prompts (format of your choice bullet points, mind map, diagrams).
